leather and all other motor car materials so HIGH we can sell the Chandler at a price so LOW.

Yes, there are lower prices. But there is no price so low for such a car. We could build a cheop car. That would be easy.

But it would be a problem, indeed, to build a better car. We could build a small car. But the people in the cities and in the country, who want the Chandler want roominess and power and sturdy construction

This policy has made the Chandler a price-pioneer in the quality six-cylinder field. This policy put on the market three years ago this month the first highgrade six selling for less than \$2000, -the \$1785 Chandler. This policy reduced that price later to \$1595, and the policy brings you now this Greater
